Contribution of fine-scale vertical structure and swimming behavior to formation of plankton layers on Georges Bank

Scott M. Gallager*, Hidekatsu Yamazaki, Cabell S. Davis

Mar Ecol Prog Ser 267: 27–43, 2004

- On page 29, paragraph 2, and on page 33, 'Results', first sentence, the text incorrectly refers to data from a CTD mounted on ROV 'Jason'. In fact the CTD data shown in Fig. 4 and used in all calculations was from a CTD deployed from the ship 30 min prior to the ROV deployment. Therefore, the CTD data were not collected synoptically with the optical measurements.
