

## Erratum

### **Response of anchovies dampens effects of the invasive bivalve *Corbula amurensis* on the San Francisco Estuary foodweb**

W. J. Kimmerer\*

*Mar Ecol Prog Ser* 324: 207–218, 2006

- Table 5 was omitted. The table is given here.

Table 5. Summer net primary and secondary production by several foodweb components, and consumption by fish, for the 2 time periods in the study. Values are (upper) geometric means and (lower) confidence limits of the means, in  $\text{mg C m}^{-3} \text{d}^{-1}$

Time period	Primary and secondary production				Consumption by fish		
	Phyto-plankton	Rotifers	Calanoid copepods	Mysids	Anchovies	Other pelagic	Demersal
1980–1987	129	1.4	1.1	0.4	0.5	0.6	0.3
	92–183	1.1–1.7	0.7–1.5	0.2–0.8	0.3–0.9	0.3–1.1	0.1–0.6
1988–2001	49	0.3	0.7	0.2	0.06	0.3	0.3
	39–61	0.2–0.4	0.4–1.1	0.08–0.4	0.03–0.1	0.2–0.4	0.1–0.4
