

COMBINED AUTHOR AND TITLE INDEX

(Volumes 21 to 30, 2002–2006)

A

- Aasa A, see Jaagus J et al. (2003) 23:111–129
 Abaurrea J, Asín J (2005) Forecasting local daily precipitation patterns in a climate change scenario. 28:183–197
 Abaurrea J, Cebrián AC (2002) Drought analysis based on a cluster Poisson model: distribution of the most severe drought. 22:227–235
 Achberger C, see Hanssen-Bauer I et al. (2005) 29:255–268
 Adejuwon JO (2005) Food crop production in Nigeria. I. Present effects of climate variability. 30:53–60
 Agnew MD, see Palutikof JP et al. (2004) 26:43–59
 Ahas R, see Jaagus J et al. (2003) 23:111–129
 Ali-Toudert F, Djenane M, Bensalem R, Mayer H (2005) Outdoor thermal comfort in the old desert city of Beni-Isguen, Algeria. 28:243–256
 Allen M, see Karoly DJ et al. (2003) 24:91–92
 Alonso S, see Sotillo MG et al. (2003) 23:247–261
 Amaro T, see Witbaard R et al. (2005) 30:29–38
 An HS, see Chang YS et al. (2002) 23:31–38
 An HS, see Chang YS et al. (2004) 27:51–58
 Anagnostopoulou Chr, see Maheras P et al. (2006) 30:161–174
 Angelis CF, McGregor GR, Kidd C (2004) Diurnal cycle of rainfall over the Brazilian Amazon. 26:139–149
 Angersbach K, see Sheppard PR et al. (2002) 21:219–238
 Apaydin H, Sonmez FK, Yildirim YE (2004) Spatial interpolation techniques for climate data in the GAP region in Turkey. 28:31–40
 Archer ERM, see Johnston PA et al. (2004) 28:67–82
 Ashley ST, Meentemeyer V (2004) Climatic analysis of Lyme disease in the United States. 27:177–187
 Asimakopoulos DN, see Livada I (2005) 28:155–161
 Asín J, see Abaurrea J (2005) 28:183–197
 Assel RA, see Rodionov S (2003) 24:19–31
 Attrill MJ, Kelmo F, Jones MB (2004) Impact of the 1997–98 El Niño event on the coral reef-associated echinoderm assemblage from northern Bahia, northeastern Brazil. 26:151–158
 Aulenbach S, see Kittel TGF et al. (2004) 27:151–170
 Austin D, see Finan TJ et al. (2002) 21:299–310

B

- Bachelet D, see Kittel TGF et al. (2004) 27:151–170
 Baenziger PS, see Xue Q et al. (2004) 25:243–252
 Bales R, see Hartmann HC et al. (2002) 21:239–258
 Baliunas S, see Soon W (2003) 23:89–110
 Baliunas S, see Soon W et al. (2002) 22:187–188
 Baliunas S, see Soon W et al. (2003) 24:93–94
 Balling RC Jr, see Roy SS (2003) 25:171–178
 Balling RC Jr, see Kalkstein AJ (2004) 26:1–4
 Balling RC Jr, see Ellis AW et al. (2006) 30:113–124
 Bárdossy A, Stehlík J, Caspary HJ (2002) Automated objective classification of daily circulation patterns for precipitation and temperature downscaling based on optimized fuzzy rules. 23:11–22
 Barring L, see Ekström M et al. (2002) 23:51–66
 Barros V, see González M et al. (2002) 21:141–155
 Barthelmie RJ, see Pryor SC et al. (2005) 29:183–198
 Bartkeviciene G, see Bukantis A et al. (2005) 28:221–228
 Becker S (2005) Thermal structure of the atmospheric boundary layer over the South African Mpumalanga Highveld. 29:129–137
 Bednorz E, Kossowski T (2004) Long-term changes in snow cover depth in eastern Europe. 27:231–236
 Beersma JJ, Buishand TA (2003) Multi-site simulation of daily precipitation and temperature conditional on the atmospheric circulation. 25:121–133
 Bellotti W, see Luo Q et al. (2005) 29:41–52
 Belsley DA, see Douglass DH et al. (2003) 24:15–18
 Bendix J, Rollenbeck R, Göttlicher D, Cermak J (2006) Cloud occurrence and cloud properties in Ecuador. 30:133–147
 Benestad RE (2002) Empirically downscaled temperature scenarios for northern Europe based on a multi-model ensemble. 21:105–125
 Benestad RE (2003) How often can we expect a record event? 25:3–13
 Benestad RE (2004) Are temperature trends affected by economic activity? Comment on McKittrick & Michaels (2004). 27:171–173
