- On page 154, the y-axis label was incorrect for Fig. 1b. The corrected figure and legend are shown here.

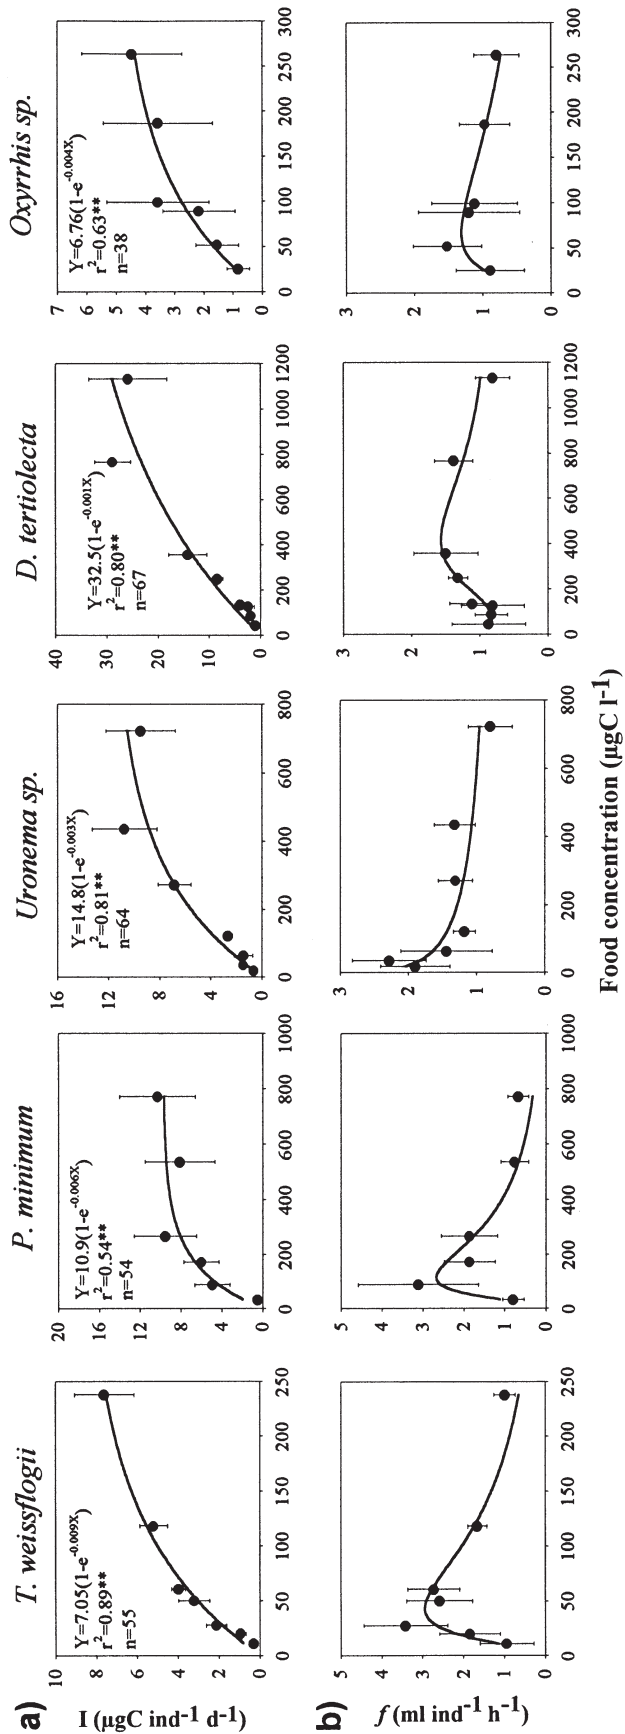

Fig. 1. *Acartia tonsa*. Functional response versus diet. (a) Ingestion rate (I) versus food concentration. (b) Clearance rate (f) versus food concentration. Each point represents the mean \pm standard deviation of 6 to 10 replicates. Regressions represent the Ivlev model fits to the data. Full species names given in Table 1
