Large viruses in Ross Sea late autumn pack ice habitats

Marcia M. Gowing, Blake E. Riggs, David L. Garrison, Angela H. Gibson, Martin O. Jeffries

Mar Ecol Prog Ser 241: 1–11, 2002

In 4 places, per ml erroneously appeared instead of per liter:

In Abstract:

'taxa were present as 10^4 to 10^5 cells ml⁻¹ melted sample' should read 'taxa were present as 10^4 to 10^5 cells l⁻¹ melted sample'.

In Discussion, paragraph 4:

'abundant ($>10^5$ cells ml⁻¹ melted sample) autotrophs' should read 'abundant ($>10^5$ cells l⁻¹ melted sample) autotrophs'.

'diatoms were present in abundance $>10^4$ ml⁻¹ melted sample' should read 'diatoms were present in abundances $>10^4$ l⁻¹ melted sample'.

'abundant ($>10^5$ ml⁻¹ melted sample) heterotrophs' should read 'abundant ($>10^5$ cells l⁻¹ melted sample) heterotrophs'.

Phytoplankton composition, photosynthesis and primary production during different hydrographic conditions at the Northwest Iberian upwelling system

G. H. Tilstone, F. G. Figueiras, L. M. Lorenzo, B. Arbones

Mar Ecol Prog Ser 252: 89–104, 2003

- In Fig. 1a the dots representing the sampling stations were accidentally omitted. The corrected panel is shown here:

- In the Literature Cited, Figueiras FG should not have been included among the authors of Alvarez-Salgado et al. (1993). The correct cite is therefore:

Alvarez-Salgado XA, Rosón G, Pérez FF, Pazos Y (1993) Hydrographic variability off the Rías Bixas (NW Spain) during the upwelling season. *J Geophys Res* 98: 14447–14455
