

Erratum

Timing of nutrient depletion, diatom dominance and a lower-boundary estimate of export production for Irminger Basin, North Atlantic

Stephanie A. Henson*, Richard Sanders, Claire Hopleton, John T. Allen

Mar Ecol Prog Ser 313: 73–84, 2006

- Fig. 2d was incorrectly labelled. The complete corrected figure is given here.

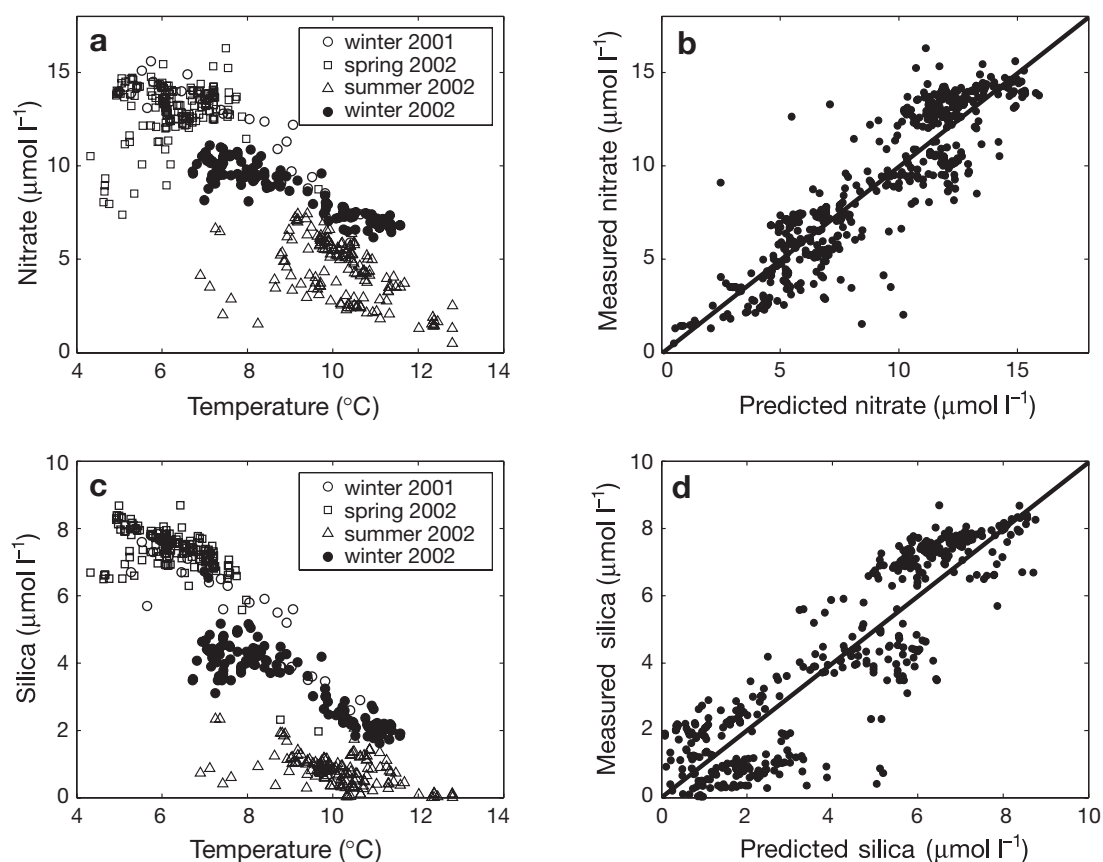

Fig. 2. (a, c) Nitrate and silica concentrations respectively as a function of *in situ* temperature during cruises in 2001 and 2002. (a) redrawn from Henson et al. 2003. (b, d) Concentrations of (b) nitrate and (d) silica predicted from multiple regression of nutrient with sea surface temperature (SST) and chlorophyll versus concentrations measured *in situ*; 1:1 line is plotted
