

Erratum

Evolutionary tradeoffs among nutrient acquisition, cell size, and grazing defense in marine phytoplankton promote ecosystem stability

W. G. Sunda*, D. R. Hardison

Mar Ecol Prog Ser 401: 63–76, 2010

- On page 70, the y-axis of Fig. 5 was labelled incorrectly (wrong units). The correct figure with its legend is reproduced here.

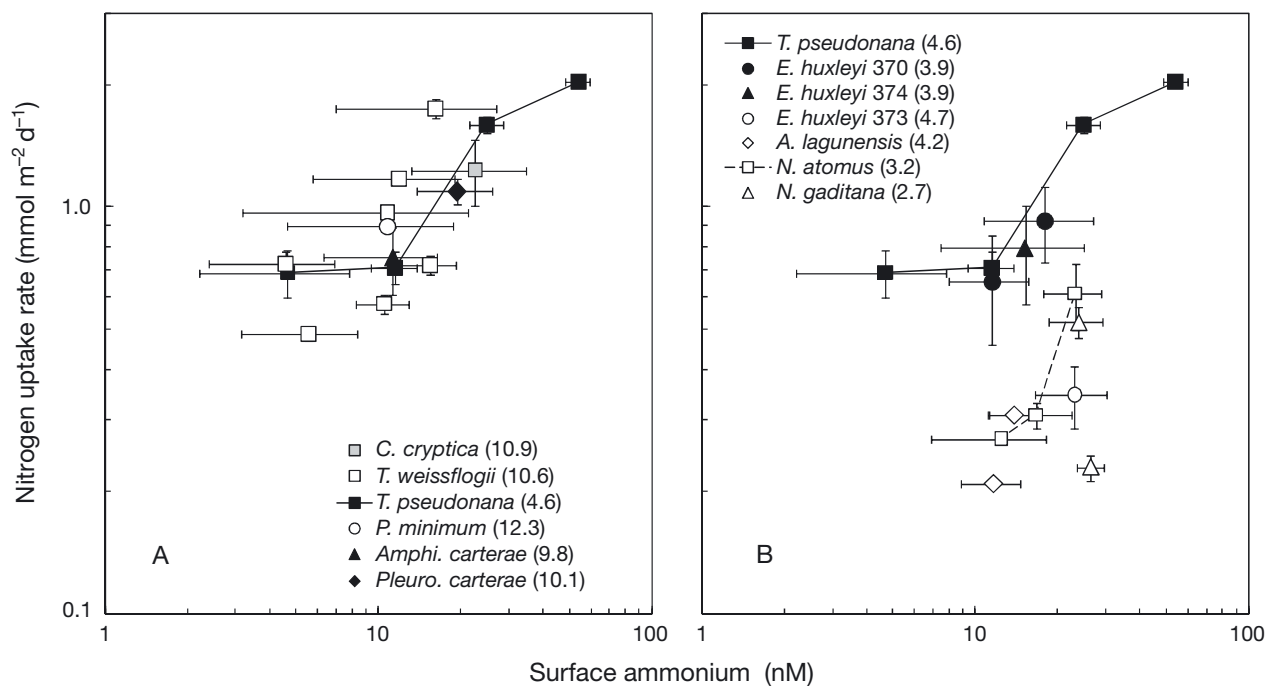

Fig. 5. Relationships between the absolute cellular nitrogen uptake rate (normalized to cell surface area) and NH_4^+ concentration at the cell surface computed from Eqs. (4) & (5). The CCMP clone numbers are given for the 3 *Emiliana huxleyi* strains. Data for *Thalassiosira pseudonana* are plotted in both panels for comparison. For full species names see Table 1. Error bars: \pm SD
