- In Table 1 on page 94, several coordinates for Start and End position were incorrect. These have now been amended in the pdf version online.

The correct table and its legend are given below.

Table 1. Location and metadata associated with the 5 photo-transects from the Emerald Basin and Sambro Bank Sponge Conservation Areas. Total number of images examined for multivariate community analyses and their area covered is given in parentheses in the 2 final columns

Transect	Position (°N/°W) in decimal degrees		Depth (m)			Transect length (m)	No. of images	Total area covered (m <sup>2</sup> )
	Start	End	Minimum	Maximum	Mean ± SD
