Supplement. Additional data

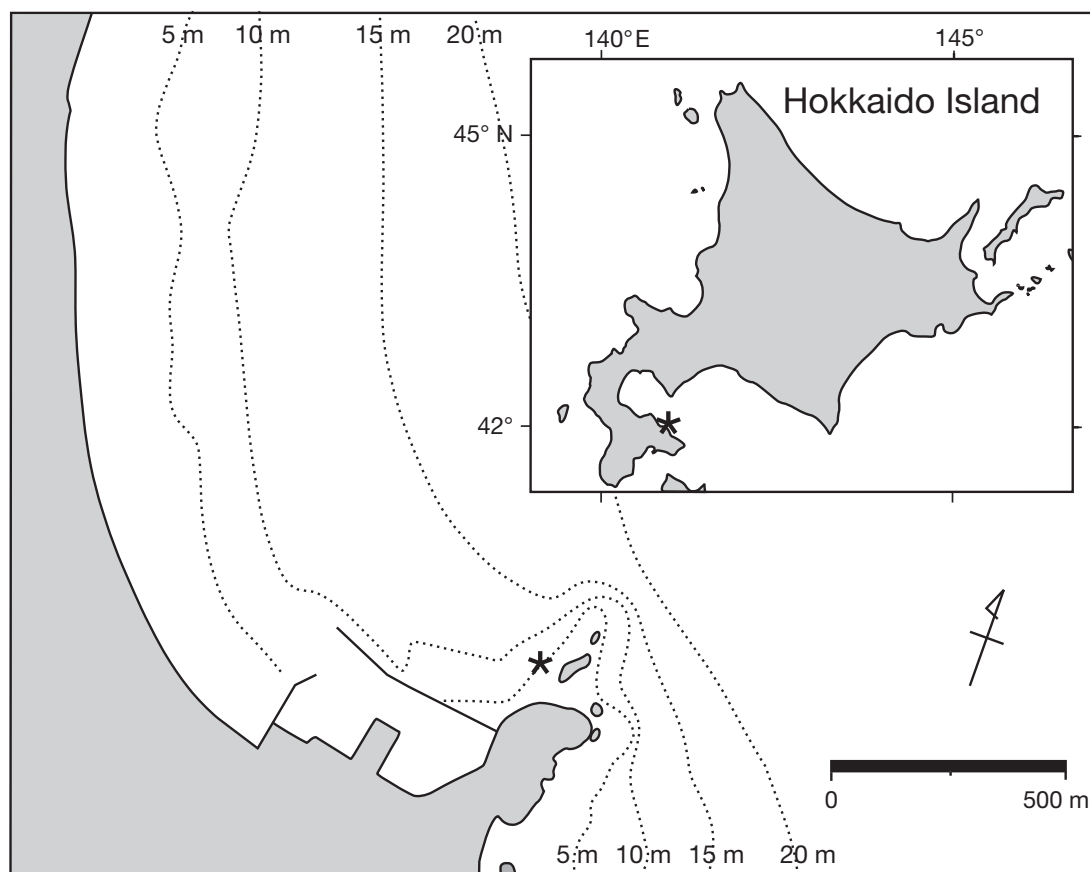

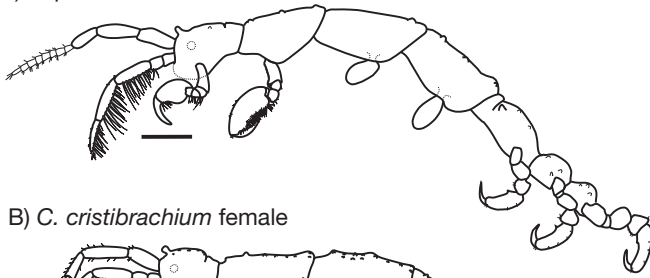

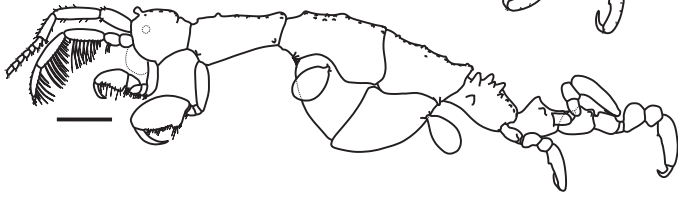

Fig. S1. Study area: Usujiri, Hokkaido, Japan. *: sampling point

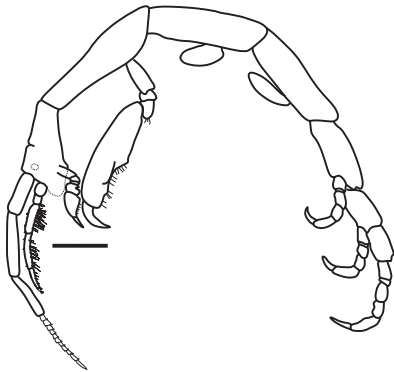

A) *Caprella cristibrachium* male

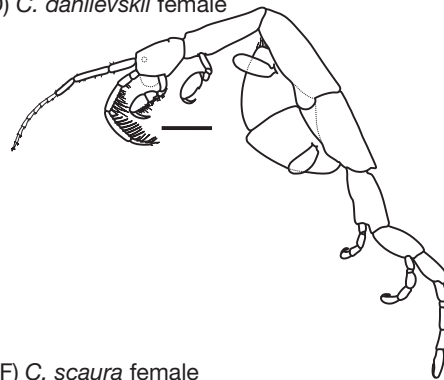

B) *C. cristibrachium* female

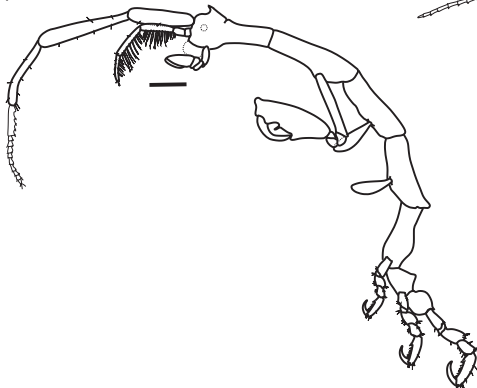

C) *C. danilevskii* male

D) *C. danilevskii* female

E) *C. scaura* male

F) *C. scaura* female

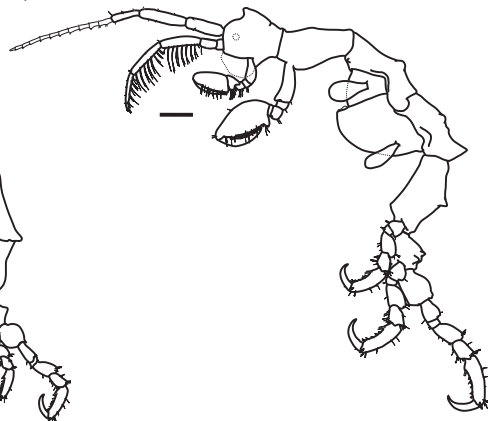

Fig. S2. Lateral views of the three caprellids in this study. Scale bars = 1.0 mm

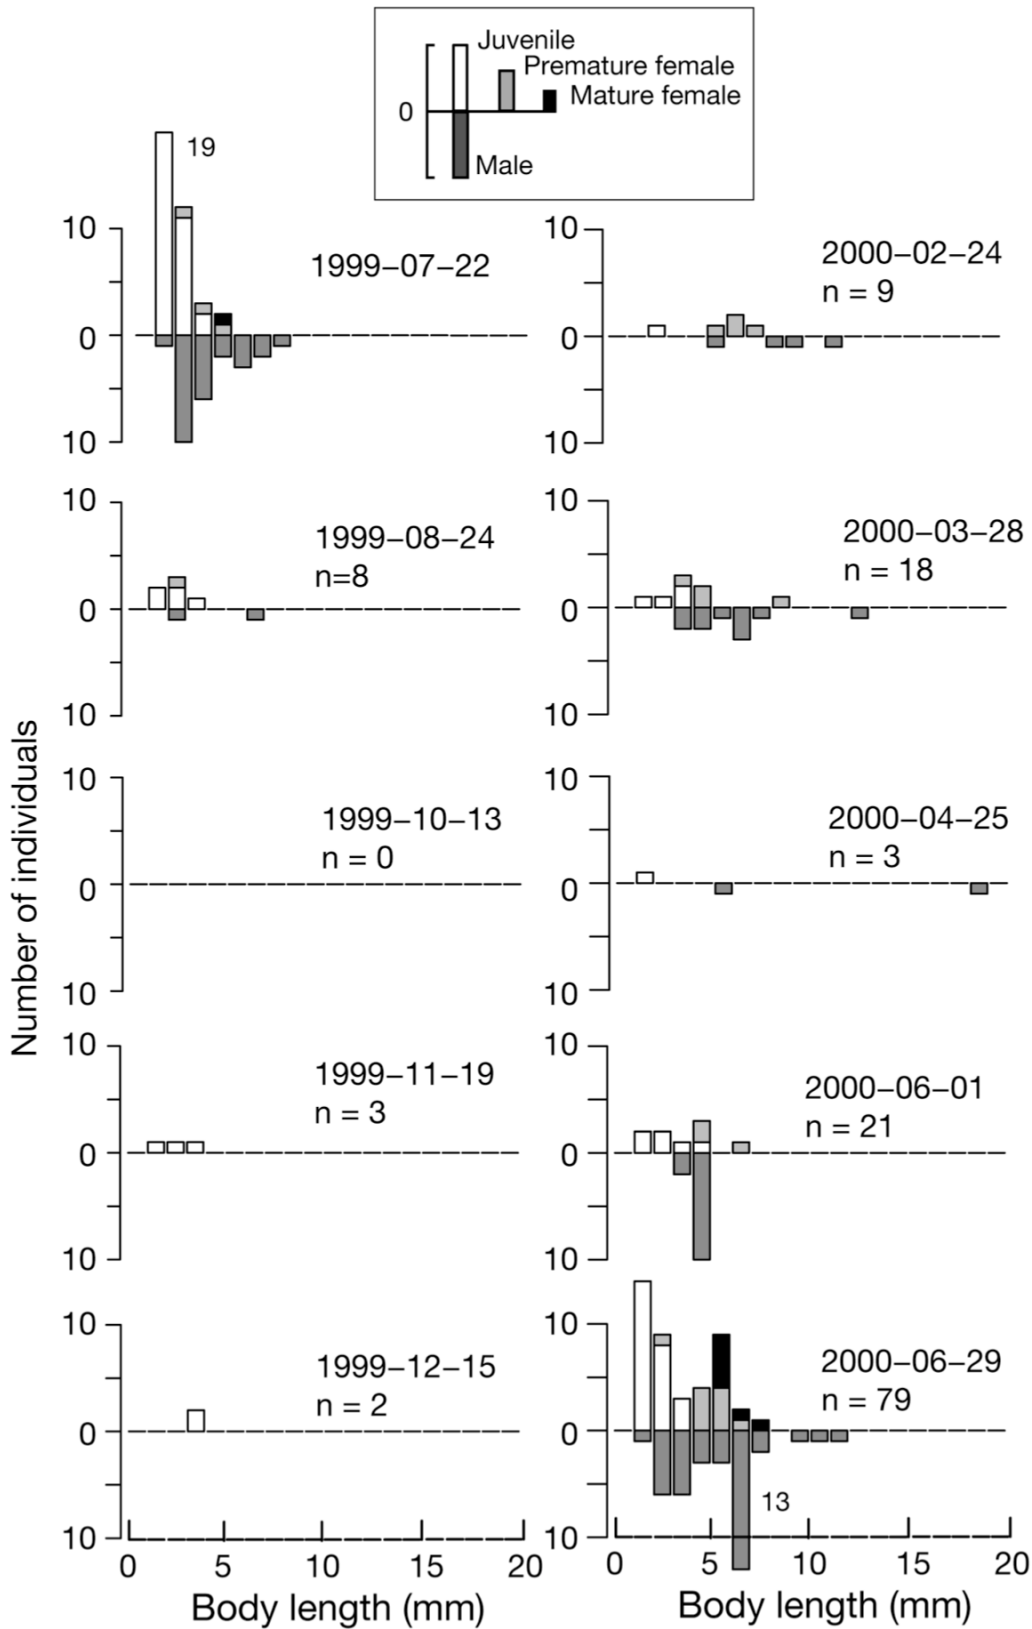

Fig. S3. Population structure of *Caprella cristibrachium* in Usujiri samples during 1999–2000

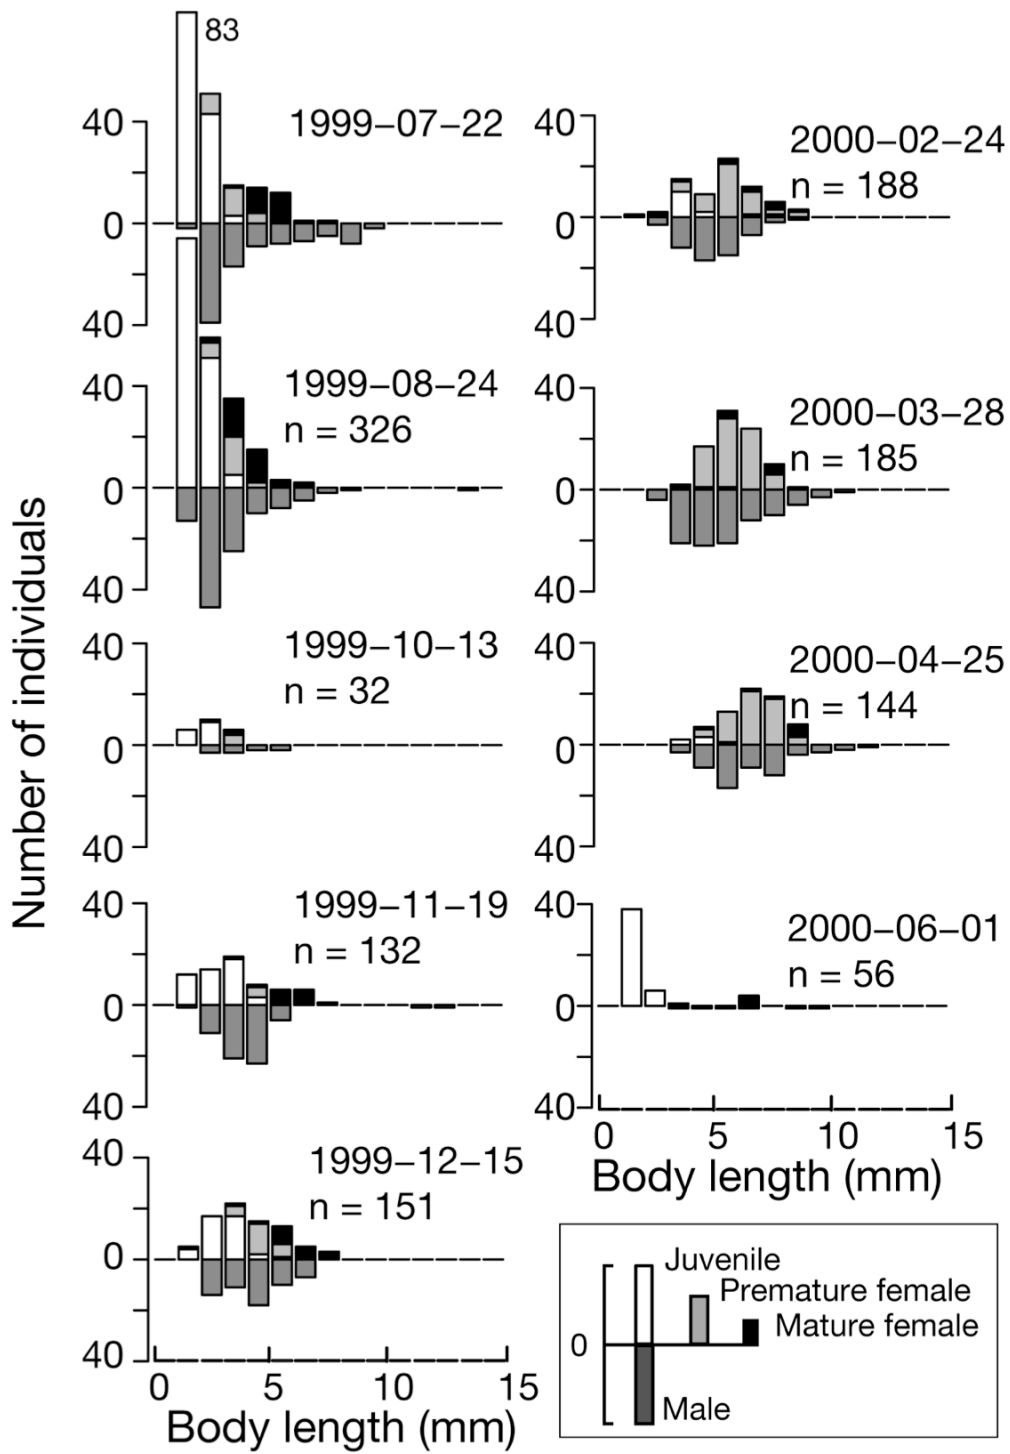

Fig. S4. Population structure of *Caprella danilevskii* in Usujiri samples during 1999–2000
